

# Pinky's Cleaning Service

## HOW TO FIND THE RIGHT Cleaning Service

For many of us the prospect of constantly working to keep our homes clean and tidy is a very daunting process. It seems like sweeping, mopping, dusting, vacuuming and other household chores will take up every minute of your free time if you allow them to. If you are tired of the amount of time and effort required to keep your home looking clean and neat, or if you just need a little extra help, you should consider hiring a professional cleaning service. These companies specialize in helping people maintain a clean, neat and healthy household. Hiring a professional cleaning service could help make your life a lot easier!

### The Benefits

- ✓ FREE TIME. Spend time on your hobbies, projects, or enjoying time with family/friends instead of cleaning your home. FREE TIME.
- ✓ Cleaning done on a schedule that you choose.
- ✓ Only pay for the services that you desire. Get top to bottom services every week, or just have them come in one or two times per month to vacuum and clean the bathrooms and kitchen.
- ✓ You won't need to have cleaning supplies or specific equipment on hand. Saves you money.
- ✓ Helps to eliminate germs, mold, fungi, bacteria, viruses, and numerous environmental allergens. It creates a healthier environment for everyone but especially children and the elderly.
- ✓ Professional cleaners will most likely clean better, faster, and deeper than you.

### The Questions

- ✓ How long has your company been in business?
- ✓ Do you have any references?
- ✓ Are you bonded and insured?
- ✓ Do you perform background checks on your employees?
- ✓ Do you check the legal status of your workers?
- ✓ Do you offer any form of guarantee? What about dispute resolution?
- ✓ Can I review your contract before I make a decision?
- ✓ Who will be providing the cleaning supplies? Will you be using any special products for my home?
- ✓ What happens if the cleaning team misses an appointment or is late?
- ✓ Can you review your pricing structure with me?

# CLEANING SERVICE CHECKLIST

- Create a list of at least 3 potential cleaning company candidates. The more companies you add to the list, the more choices you'll have.
- Perform research on each company by checking the local Chamber of Commerce and Better Business Bureau to see if a company has a complaint lodged against them.
- Call each company and request an interview. A company that will send a representative to your home to conduct the interview and view your home in person is a good company to consider.
- During the interview be clear about what specifically will be required of the cleaning service, if they will be able meet your demands, what your desired cleaning schedule is, and any special considerations and budget requirements you have.
- Compare your notes and hire the cleaning company who you feel is the most capable, honest, trustworthy, and fair based on your research and interviews.
- Take some steps to get your home ready for the cleaning crew to arrive. This will in turn allow them to get the most amount of cleaning done during their time in your home. Review their work and report any problems or concerns immediately.
- Once you are satisfied with the cleaning company that you chose, and you feel they seem honest, trustworthy, and professional, don't just continue using them but also recommend them to other people. Referrals are after all, the sincerest form of flattery to any business.
